

829 Criminals In Bonus Army, Ouster Reported Justified

Attorney General Mitchell Says B. E. F. Brought In Largest Aggregation of Criminals to National Capital—Comment From Bonus Army Leaders.

Washington, Sept. 12 (AP)—A report from Attorney General Mitchell that federal troops summoned during last summer's encampment of the bonus army here were "necessary to, and did prevent further disorder and bloodshed" was before President Hoover today.

"In their absence, further rioting would have occurred with further bloodshed among bonus marchers and police and possibly innocent bystanders," Mitchell advised the President after an investigation of police and other official records.

"It is probable the bonus army brought into the city of Washington the largest aggregation of criminals that had ever been assembled in the city at any one time," his report said.

The 4,000 word document covering findings in the investigation ordered by President Hoover was made public by Mr. Hoover with a short statement that it "should correct the many misstatements of fact as to this incident with which the country has been flooded."

The President added: "I wish to state emphatically that the extraordinary proportion of criminal, communist and non-veteran elements amongst the marchers as shown by this report should not be taken to reflect upon the many thousands of honest, law-abiding men who came to Washington with full right of presentation of their views to congress."

Mitchell reported that 877 of the first 3,456 men named on the B. E. F. roster could not be identified as ex-servicemen and that of the 4,723 applying for transportation home, 1,663 had police records and 829 of these had been convicted. Communists, he said, promoted the march on Washington and then sought to incite the marchers to disorders.

"On the other hand," Mitchell added, "a very considerable number were genuine ex-servicemen of good intentions and clean records. This is particularly true of the condition prior to the adjournment of congress."

"... after the adjournment of congress, the quality of men in the bonus army steadily deteriorated."

Comment From Bonus Leaders.

Publication of the justice department report brought immediate comment from bonus army leaders. In New York, Walter W. Waters, commander of the B. E. F., said:

"Mr. Mitchell's charges are absolutely without foundation in fact. It was Mr. Mitchell's job to furnish this information and he did the best he could."

"I regret that this statement was timed for the American Legion Convention as it will only antagonize thousands of veterans who had begun to forget what took place in Washington."

"After a careful study a complete answer will be prepared and issued."

R. B. Ellison, who said he was national organizer of the Khaki Shirts of America, and former contact officer of the bonus army in a statement here termed the Mitchell report "a political alibi."

"One is first struck by the fact that its release to the press and the public is timed to coincide with the opening of the National Convention of the American Legion, where President Hoover and his henchmen must make their last desperate bid to regain the self-respect of the ex-servicemen of the country."

"The attempt to brand the bonus army as a criminal organization... falls flat by the attorney general's own figures. It reveals that 22.6 per cent of the 4,723 bonus marchers from whom fingerprints were obtained by the Veterans Bureau had police records."

"It is not necessary to attempt to refute these records. The B. E. F. did not ask the veterans whom it enrolled if they had ever been arrested any more than it asked what their religious beliefs were. It requires only that they give satisfactory proof of honorable service in the World War."

Ex-Congressmen and Communists.

Mitchell's report of the crowded two month's history of the bonus encampment said ex-congressmen and communists led the first groups to arrive. Later, a better element came, but largely departed when Congress adjourned. The best estimates of the army's size was given at 8,000 to 15,000 when Congress adjourned and 6,000 to 8,000 at the time of the "riot" on July 28.

A total of 362 were arrested by police during their stay for various offenses including "disorderly conduct, parading without a permit, assault on private property and solicitation of alms."

"Of the 829 found to have been convicted in the past for criminal offenses," the largest group of 325 were for larceny and theft, 95 for drunkenness among 19 other offenses, the report said.

White Pays \$10 Fine.

Perdual White of Seneca, N. Y., was picked up by Trooper Smith Sunday with attempting to pass another car on the narrow roadway at the West Park viaduct. Before Justice of the Peace Henry E. McEneaney at Port Jervis White paid a fine of \$10.

Treasury Receipts.

Washington, Sept. 12 (AP)—Treasury receipts for September 9 were \$5,444,474.10; expenditures \$15,740,735.51; balance \$278,356,494.73. Customs duties for 9 days of September were \$4,879,596.35.

New Armory Is Nearing Completion

The new armory on South Manor avenue is nearing completion. The rooms are being plastered, the two boilers for heating are installed, the portion to be used for stables has the concrete floor laid and tubular stanchions in place, giving every indication of being a thoroughly modern and complete stable. The facilities offered for training of a field artillery unit will greatly increase the efficiency of the National Guard units in this city and when it is opened for use near the first of the coming year, Kingston will have every reason to be proud of one of the best armories in the state.

Hospital Grateful For Concert Success

September 12, 1932.
To the Editor of the Kingston Daily Freeman:

Our beautiful and brilliant concert is over, but its memory, I am certain, will live long in the hearts of all who were fortunate to attend it. The enthusiasm and excitement that permeated the air in its anticipated approach has given place to a richer joy, a true and deeper appreciation for the exquisite, finished and inspired music that thrills the heart and soul of every human being for the holler and noble things of life.

To Pierre Henrotte, our patient but a few months ago, we are indebted for this rare and magnificent concert. His mind conceived and planned it for the benefit of our hospital. It was his kind and generous heart that secured such world renowned artists, and made us the recipient of such a brilliant concert. We are likewise cognizant of the honor and prestige conferred on our hospital and entire personnel by the generous contribution of time and talents given to us by such famous artists as: Inez Carroll, concert pianist; Georges Barrere, flutist; Leon Barin, viola; Pierre Henrotte, violinist; Paul Kefer, cellist; Gerald Kunz, violinist.

To the above renowned and distinguished musicians, we will be always grateful for the rich and splendid services they have rendered us; also for the happiness enjoyed by all true lovers of music, who were fascinated and held spell-bound by their amazing technique in the masterful rendition of their various instrumental pieces.

Kingston's High School too, was a perfect setting for such a brilliant affair. The concert was likewise enhanced by the splendid services rendered by the many former high school boys, who directed the entire setting of the affair. To them we are most grateful. Sincere appreciation is likewise due to the public at large, and to each and everyone who so generously responded when appealed to, in order to make the affair a huge success. To the merchants also we are most grateful for the prominent recognition they gave to our concert in their advertisements in the daily papers. Likewise to all who made their business as a center for the distribution of tickets.

Last but by no means least, is sincere gratitude due the entire staff of the Kingston Daily Freeman, who so generously gave such a prominent place and space for the various splendid write-ups that constantly kept the people reminded of the big and rare event that has visited the city of Kingston, thrilled its music lovers and made a lasting impression.

The above was indeed a great favor and truly appreciated by us. The crowning and enhancing write-up, however, was the beautiful and descriptive account of the concert given in the Saturday's Daily Freeman column of Weekly Events in Kingston's Society.

Gratefully,

SISTER M. BENEVICE,
Superintendent of Hospital.

MAIN VOTERS GO TO POLLS TODAY

Portland, Me., Sept. 12 (AP)—Ballot boxes clicked open in Maine's 632 election precincts today, as voters of the state moved into the center of the political stage occupied by the past four weeks by a varied array of native and imported spell binders.

By a lightfall a governor, three congressmen, members of the state legislature and county officials will have been chosen and a proposal to increase the state gasoline tax from 4 to 5 cents approved or rejected.

Outside the state, political commentators and partisan leaders were ready to interpret the outcome for its effect on national political fortunes and the destiny of federal prohibition.

At home, the voters were principally curious to learn what success the new 1932 model Democratic vote-gleaning machine has had in harvesting support for its candidates where little but republican votes have blossomed before.

Friend and foe alike acknowledged the minority party this year had made its best fight since 1914. That year Maine Democrats enjoyed their last important success, capturing the governorship and electing one of their congressional candidates.

Today, for the first time in more than a decade, voters in practically every precinct saw full Democratic tickets on the ballots and witnessed a state-wide Democratic organization exerting itself to bring voters to the polls.

Nine Primaries And Search Ice Floes For "Flying Family"

(By The Associated Press)

The voters of ten states as far-flung as Washington and Maine, write their story of X's this week.

Maine was first, holding its state election today, two months ahead of most of the country. Eight states follow tomorrow with primaries, the week's procession ending with the Georgia primary Wednesday.

States where primary elections will be held tomorrow are: Arizona, Colorado, Louisiana, Michigan, New Hampshire, Vermont, Washington and South Carolina.

In some of tomorrow's voting national issues and national figures are involved. In others, interest concentrates upon state affairs. All the primaries are being watched by national Republican and Democratic leaders to see if they may not give some indication of what November holds.

Maine has been the immediate forum of orators for the two major parties. Secretary Mills of the treasury would up the campaign for the Republicans Saturday night. Senator Walsh and Governor Ely extolled the cause of the Democrats Friday.

The Republicans, through their state chairman, forecast victory for Burleigh Martin, their candidate for governor, by "more than 25,000 votes."

Louis J. Brann, the Democratic candidate, believed he would win by 20,000. Brann favors repeal of the prohibition amendment. Martin was non-committal in his campaign talks.

Among tomorrow's primaries the prohibition issue arises in Michigan in the efforts of two former congressmen, Cramton and Hudson, to win Republican renomination. Each was an active prohibitionist, and each was defeated two years ago by an anti-prohibitionist. Candidates for state offices and seventeen house seats also will be named by Michigan voters.

Prohibition echoes also from the state of Washington where Senator Jones, author of the "five and ten" law which put new teeth in prohibition enforcement, is opposed for renomination by Adam Beeler, two Seattle men, Stephen Chadwick and Edwin Brown, want the Democratic nomination.

Senator Huey Long figures sharply in Louisiana's primary, although not himself a candidate. He has campaigned vigorously against the renomination by Louisiana Democrats of Senator Broussard and in favor of Representative Overton for the place.

In Vermont, Senator Porter H. Dale, Republican, is opposed for renomination. Fred C. Martin, also unopposed, will be his Democratic opponent in November. Prohibition has been a topic of the campaign of Congressman Ernest W. Gibson and Loren R. Pierce for Republican nomination for Vermont's single seat in the house. Gibson advocates reestablishment. Pierce has urged repeal.

New Hampshire's senior senator, George H. Moses, has spent little time campaigning for renomination. He is unopposed save by Joseph L. Richards, new to New Hampshire politics, who has asked voters to write in his name on the ballot. He failed to file in time to have his name appear.

In Arizona, the seven-times governor, George W. P. Hunt, 73 years old, will have four opponents for the nomination. The party registration in Arizona is four to one as regards Democrats and Republicans, but for the first time in the state's history the Republicans are placing a full ticket in the field.

Interest in Colorado tomorrow centers on the contests for senatorial nominations. Candidates for the unexpired term of the late Senator Waterman and for the full term of six years are to be named.

In South Carolina, it is strictly a senatorial affair, the voting being on the question of whether Senator E. D. (Cotton Ed) Smith or Former Senator Cole L. Blease will be the Democratic candidate for the seat now held by Smith.

On Wednesday Congressman Crisp and Governor Russell will contest in Georgia for the nomination of senator on the Democratic ticket.

PLAN BUDGETED MEDICAL SERVICE TO FAMILIES

Omaha, Sept. 12 (AP)—A plan by which families with incomes of \$2,700 or less may receive all needed medical attention for a yearly charge of 2 per cent of incomes will come before the Omaha-Douglas County Medical Association Tuesday for decision.

The proposal provides that all members of the medical society, hospitals, and nurses offer their services to the group of families eligible for the "health police." It is provided that these policies shall be canceled only on grounds of "deceit or fraud." Size of the family would have no bearing on the fee.

Heavy Frost Damaged Crops

Avoca, N. Y., Sept. 12 (AP)—Farmers today continued to survey damage to crops from a heavy frost which formed in the Cohocton valley Saturday night and early yesterday. The loss was expected to run into thousands of dollars, mainly in potatoes, beans, corn and garden vegetables.

Committed to Jail

Robert Howland of Lake Hill, 23 years old, was committed to the national convention of the American Dental Association in Buffalo this morning. He will resume his practice on Monday, September 19.

Charles A. VanEtten Heads 51st Pioneers

The fifth annual session of the Fifty-first Pioneer Infantry Association was held on Sunday, September 11, in Mt. Vernon with an approximate attendance of 400. Charles A. VanEtten of this city was elected president of the organization.

The business session was held in the morning in the armory, the members being welcomed by Mayor Bateman in behalf of the citizens of Mt. Vernon. As has been the custom in the past the mayor was made an honorary member of the association.

Before the business session started the members stood in silence for one minute while taps were blown in memory of departed comrades.

President Frank Miller of Alexandria, Virginia, presided during the meeting. The report of the treasurer showed the treasury to be in a very healthy condition.

The following officers were elected: President, Charles A. VanEtten, Kingston; first vice president, Percy H. Roe, Catskill; second vice president, Albert C. Bokart, York; third vice president, Charles H. Canfield, Harmond-on-Hudson; secretary, Eugene C. Cornell, Kingston; treasurer, Charles T. Dixon, Kingston; chaplain, Rev. Francis M. Miller, Brookline; historian, Daniel Kennedy, Flushing; sergeant-at-arms, Philip Quinn, Flushing.

The following members were elected to serve on the executive committee: A Company, Charles J. Funk, Rhinebeck; B Company, Victor F. Smith, New York city; C Company, Milton A. Siegfried, Newburgh; D Company, Harry Friedman, New York city; E Company, Percy H. Roe, Catskill; F Company, Peter Keresman, Kingston; G Company, Gustav W. Klein, Yonkers; H Company, Charles Jacob, Mt. Vernon; I Company, Albert Crandall, Rosedale; K Company, Charles Vossler, Poughkeepsie; L Company, Ernest A. Haack, White Plains; M Company, A. G. Messinger, Kingston; Machine Gun Company, Floyd S. Weeks, Hempstead; Supply Company, Gerald Fitch, Newburgh; Medical Detachment, Sheldon S. Shumons, Albany; Headquarters Company, Henry Silverstein, Albany.

Next year being the tenth anniversary of the founding of the association a committee was appointed to obtain some suitable remembrance to be given the members.

The association went on record as favoring the immediate payment of the remaining half of the adjusted service certificates at the face value.

Following the business session the members went in cars to Pelham Bay where a clambake was served. Charles H. Canfield, chairman of the reunion, with his corps of assistants received many compliments on the arrangements of the affair. Members arriving at the armory in the morning were served a breakfast of ham, eggs, rolls and coffee.

The reunion next year will be held in Hempstead, Long Island, on Sunday, September 10. The members from Hempstead are already making plans for the affair and as one of them remarked, "We will show you where we grow the clams."

The trip from Kingston was made in the large buses of the Ferraro Brothers, bus company of Saugerties, the bus being in charge of Ernest Ferraro. For the enjoyment of the members on the bus, which is part of the regular equipment, was tuned in on different stations and varied programs enjoyed.

The following delegation from Kingston was in attendance: George Plankhaber, Frank Sam, Peter Keresman, Martin F. Netter, Eugene Cornell, Charles T. Dixon, Edward Perry, Christopher Perry, Peter Norton, Edward Geschwind, George McCullough, Albert Messinger, Claude J. Markle, Robert A. VanEtten, Robert Rice, Robert E. Fox, Arthur Fox and Mark Cornell. It was about ten o'clock when the gang returned to Kingston, a tired but happy lot, having once again met buddies of old in the service, some the first since being discharged.

UNUSUAL ACCIDENT AT ESOPUS ON SUNDAY.

A most unusual accident happened just south of the Beaver gasoline filling station at Esopus Sunday. A sedan car bearing a New Jersey license bound south met with difficulty just as it entered on the down grade near the filling station. Both rear wheels were broken from the car and the car continued down the concrete highway for some distance out of control of the driver. After traveling a considerable distance along the concrete the sedan left the road and took a course up a steep embankment. When it came to rest it was dangerously near turning over. None of the occupants was injured although the car was a wreck. On its course along the ditch it struck several large rocks.

A Collision.

William Cline of 23 Post street reported to the police Sunday night about 8:15 o'clock that his automobile had been struck by another car at the corner of Warts and Hunter streets. Cline said that he proceeded to turn from Warts street into Hunter street and the other car ran into his. He complained that the driver of the automobile refused to give his name or show his license.

The number of the license on the car was 7D 46 22, said to have been issued to Percy Parker of 453 Broadway.

Attending Convention

Dr. R. H. Whelan is attending the national convention of the American Dental Association in Buffalo this morning. He will resume his practice on Monday, September 19.

Goodwin Stands Squarely For Repeal

Will Fairly Represent the Sentiments of His Constituency and Vote For Repeal of the Eighteenth Amendment—Opposed to Tax Increase, Special Interests and Needless Bond Issues.

Coxsackie, New York, Sept. 12, 1932.

To the Editor:

It has come to my attention that The Kingston Daily Freeman desires to place before its readers information regarding the candidates for public office and how they stand on questions now in the minds of the thinking voters.

I am a candidate for Congress. On July 23, the members of the Republican Congressional Committee and the five county chairmen, representing the five counties composing this, the 27th Congressional District, met in Kingston and carefully discussed the various candidates proposed for the office of Representative in Congress, to be chosen at the ensuing election. Candidates from four of the five counties were proposed and carefully considered. An unanimous determination was thereupon made by the members of such Congressional Committee and the five county chairmen, recommending to the enrolled voters of the five counties, the name of the writer of this article.

Following this action, conventions in each of the five counties were held and resolutions voted upon and unanimously adopted, recommending the nomination made by the Congressional Committee.

Ever since the organization of the Republican party, county conventions composed of delegates representing all sections of the district have met in convention to determine party action. These conventions have continued since the enactment of the primary law and represent the concerted effort on the part of those who have the best interests of the party at heart, to select candidates to fit the situations with which we are faced.

Perhaps, it might be well, under the circumstances, to insert a short biography of the candidate. Born on a farm in Greene county, and a lifelong resident of the town of Coxsackie. Graduated from high school and later graduated from a business school. After some experience in Y. M. C. A. work, entered the employ of the American Bridge Company. Became contracting agent of the United Construction Company of Albany, N. Y. Entered the firm and is now owner of J. H. Goodwin & Son, in the lumber business. Founded and was first president of the Goodwin-Grissold Company of Albany. Became a director, then vice president and now president of the National Bank at Coxsackie. Served three years as president of the local board of trade. Is president of the local Red Cross Society. A trustee of several public associations.

With this background of a life spent in business, I think it can be said that I am a business man.

It is agreed by economists that the next congress is to be one of business. It is within congress that the business of the United States government is done and the members of that body should be qualified by business experience, to represent their districts from that angle.

Largely in all of the issues and problems stands the situation of the taxpayer. Taxes have reached a point of vital concern. They are hampering the activities of our farmers and causing him his greatest problem. The manufacturer, alike, gazes with heavy heart at the tax bills. The business man must provide in his margins of profit for the next tax and in the final analysis, the consumer or rank in file of American people must pay. I pledge to you my best efforts to bring about a reduction in taxation.

As regards special appropriations, I believe that class legislation and preferred interests are not in keeping with our Republican form of government. I do not believe that the deficits of the wool grower of New Hampshire, differs from those of the farmer of the west or the cotton grower of the south. I do not believe in bond issues which are canceled for the benefit of any particular interest, when such bond issues does not benefit the whole. I believe in the balanced budget.

The Eighteenth Amendment. Fair minded people on both sides of the question should be willing to concede in their opinions a strictly equal to their own and realize that whatever changes are brought about in the present system must be made in an orderly fashion and in the ways provided by the constitution. Congress cannot under any condition violate the Eighteenth Amendment.

It is my opinion that the working out of the Eighteenth Amendment has been unsatisfactory. I have carefully investigated the feeling in our district and it seems to be for repeal. Being a firm believer that a representative in Congress should be a representative in every sense of the word and that the majority opinion should be his trust, I shall vote in accord with that belief.

As a matter of information to those who believe that the Congress should vote to decide the matter, I would call attention to the fact that no liquor cases on the calendar today.

Legion Convenes With Bonus An Issue

Portland, Ore., Sept. 12 (AP)—The annual convention of the American Legion, convened here today for the opening of the annual national convention of the American Legion.

At least 35-state delegations have come in to the convention and federal cash payment for the ex-soldiers and settlement was crystallized a pre-convention caucus of bonus proponents led by Representative Wright Patman of Texas last night.

One member of President Hoover's official family, Secretary of War Patrick J. Hurley, is attending the convention. He announced he had not been invited to make an address and declined to say whether he would speak if invited to do so.

Hanford MacNider, former United States minister to Canada and a former national commander of the Legion came here as a member of the Iowa delegation, but had to return home owing to the illness of one of his children.

He declared unfounded rumors that he and Hurley had been sent here by the administration to combat bonus sentiment. He said he expected the legion to be "sensible," but added that "some state departments are coming here with resolutions of approximately 12 words which if adopted would ruin the finances of the country."

Speeches by distinguished guests, including Josephus Daniels, war time secretary of the navy; greetings from state and city dignitaries and the annual report of Henry L. Stevens, national commander, were to take up most of the first day's program.

Movies of Local Soldiers In Camp

On Wednesday night of this week at 8 o'clock, the officers and men of "A" Battery, 156th Field Artillery, N. Y. N. G., will present at the Armory for the entertainment of their friends, the motion pictures taken at Pine Camp this summer, depicting the varied activities which took place during the summer tour of duty.

These pictures are illustrative of the varied training program by which the state prepares its manpower for service in case of emergency. There are also shown the parades and ceremonies, such as the mounted review and formal guard mount, which indicate the degree of precision attained by the men.

The public is cordially invited to attend this presentation and see how the men of Kingston compare with the other batteries in the regiment.

JUDGE LOUGHRAN PRESIDES OVER GREENE COUNTY COURT.

Judge John T. Loughran presided the September term of supreme court in Greene county this afternoon.

This is the first regular trial term over which Judge Loughran has presided in Greene county since his elevation to the bench.

Agony Had Quiet Week-End.

Federal agents from the local prohibition office had a quiet week-end. There were no raids or seizures and the new of Commissioner Connelly found no liquor cases on the calendar today.

(Continued on Page Three)

State Makes Appeal For Care To Prevent More Forest Fires

Albany, Sept. 12.—To date this year there have been more forest fires in the state of New York than there were during the entire calendar year 1931. Although the total area burned has been less, it is estimated that 1,971 acres had been burned in 1932, as compared with 24,216 acres in 1931. There were 1,725 fires during 1932, as compared with 24,716 fires in 1931.

Most of this year's fires were in the spring, with very few during the summer. The autumn season, usually regarded as the most hazardous as far as forest fires is now approaching and the state conservation department is making its usual request for the public to exercise the greatest care in the use of matches and cigarettes.

The department is making its usual request for the public to exercise the greatest care in the use of matches and cigarettes. It is requested that they avoid the use of matches and cigarettes in the woods, and that they avoid the use of matches and cigarettes in the woods, and that they avoid the use of matches and cigarettes in the woods.

When you build a campfire, never place it over a vegetable matter. If possible, build it on a rock and clear a space around it of three or four feet. Never build it against a log or a stump. Always make sure it is out before you leave it. Throw water on it or smother it with sand or earth. This year 329 forest fires began as campfires.

Farmers are requested to be careful in burning dead grass or fallen leaves. They should not set any such fire close to the woods and should watch all such fires until they are thoroughly extinguished. Burned grass, leaves and rubbish caused 283 of this year's fires.

The fact that fewer acres were burned this year, although there were more fires, is due to improved methods of detection and improved equipment for fighting forest fires now employed by the conservation department. Not only has the department placed into operation five new fire trucks, but it also has been using its airplane, purchased in 1931, for the purpose of quicker detection of fires and the direction of fire fighters to the scene of each blaze.

Getting Ready For Symphony Orchestra

While the first rehearsal of the Kingston Symphony Orchestra has not yet been definitely called, conductor George H. Muller has the tentative programs for the coming two orchestral concerts well mapped out and the rehearsals will be called shortly. It is very encouraging to the Kingston Symphony Society that there have been applications from musicians not formerly connected with the orchestra, for membership in the orchestra. When it is recalled that before the old Kingston Symphony Orchestra was disbanded because of the world war, school children had become so well acquainted with the themes of some of the great symphonies as to whistle and hum them on the streets. With the Symphony Orchestra established as a permanent musical organization in the community, the city stands some chance of giving the children the opportunity to hear and know first hand the masterpieces of musical composition that they have been learning to like as they have heard over the radio. The music in connection with the personality of the conductor and the people who play in the orchestra, having worked as they may have worked to be able to play such music, is a full hundred percent better. The Kingston Symphony Society which is sponsoring the Kingston Symphony Orchestra will have the heartiest support of the people of Kingston, especially from the homes where there are children to be the gainers from such a musical education.

Albany Avenue Baptist Church. The following meetings are scheduled this week at the Albany Avenue Baptist Church:

Tuesday, September 13, at 7:15 p. m., the Scout troop will meet, with Scoutmaster Gray in charge.

Wednesday, September 14, at 8 p. m., the Ladies Aid Society will hold its regular meeting with Mrs. Grover C. Lasher, president, in the chair.

Thursday, September 15, at 7:30 p. m., the mid-week service will be held and is open to all.

The Bible School Rally Day exercises will be held on Sunday, September 25, at which time promotions will be made, certificates awarded and arrangements for the new school year announced.

Register of Deeds Carl Frigden of Kingston, N. C., refused to issue a marriage license to a negro man, 35, and woman, 31, because they had only \$4 of the regular \$5 fee.

SAUGERTIES

Saugerties, Sept. 12.—George Leat of Seattle, Wash., a former resident of Glasgow, is the guest of his brother-in-law, Adelbert Fuller, on Main street.

Mr. and Mrs. Corneille Longendyke of Malden avenue spent Friday at the Chatham fair.

Miss Margaret Wels of Brooklyn is the guest of Mr. and Mrs. Stanley Longendyke on Washington avenue.

Sister Josita Rosario, who for the past three years has been principal of St. Mary's school here, has been transferred to Stapleton, N. Y. Sister Roberta of New York city has been made the local school principal and has already taken charge of the school.

The annual reception and dinner which will be tendered to the faculty, Board of Education and the Parent-Teachers Association will be held on this Tuesday evening at the Rip Van Winkle Country Club at Palenville.

Merritt Riley of Ashbury was injured on Tuesday when a horse kicked him in the stomach. Dr. Diedling was called and found him suffering from internal injuries.

New books of fiction were placed to the use of the public in the local library on last Saturday.

Miss Evelyn Swart of Partition street has gone to Brooklyn where she will enter the Kings County Hospital to take a course in nursing.

Mr. and Mrs. Abel Baker and daughter of Union, N. Y., spent the past few days with Mr. and Mrs. Martin Baker on Dawson street.

Miss Cora Blanch Longendyke, who has been spending some time with relatives in this place, has returned to her home in Brooklyn.

Mrs. Boudah Reynolds, who has been spending some time on Long Island, has returned to her home.

Walter Carle of Washburn Terrace has resumed his studies at Syracuse University.

Mr. and Mrs. Benjamin Roth and daughter and Mr. and Mrs. Jack Champagne of New York city were recent guests of Mr. and Mrs. Otto Kahn on Barclay Heights.

Misses Marie and Genevieve Casanova, of Freeport, L. I., are visiting the Revengos on Partition street.

Mrs. Frank Davis, of Queens Village, L. I., is the guest of her father, Henry Rimey, on Post street.

Mrs. Carlson, of New York city, has returned to her home, after spending some time with Mrs. I. Johnson, on the Saugerties-Kingston highway.

G. Robert Knell, of Queens Village, L. I., was a recent guest of Mr. and Mrs. Robert Schuchardt, on Second street.

Mr. and Mrs. John C. Shandley, of The Bronx, New York city, have purchased a cottage and five acres of land from Mrs. Charles B. Homnell, on Mt. Airy.

On Sunday morning the Reformed Church rendered a special program when the Gloria Trumpeters were their guests. The artists, who are nationally known, rendered splendid music to a large congregation.

The enrollment of pupils in the Saugerties High School this month is 375, which is 20 more than last year.

Twin daughters have been born to Mr. and Mrs. Russell Lasher at the Beers Sanitarium. Dr. James Krom is the attending physician.

The Philathea of the Baptist Church are planning to hold an outdoor spider web and social on Wednesday, September 21.

Ernest Newkirk, who has been in the employ of the Prudential Insurance Co. for several years, has resigned as agent.

Madam Lillian has closed her dress shop on First street for the season and will spend the winter in New York city. She will return to this place early next spring.

Mr. and Mrs. James Dederick and son, Ralph, of Main street, have returned from spending the summer in the Adirondacks.

Miss Sarah Breithaupt, of West Bridge street, has returned from the Benedictine Hospital, where she underwent an operation.

Miss Alice Keenan, of Staten Island, who has been spending her vacation with her mother on Partition street, has returned home.

Mr. and Mrs. Henry Dickhout of Washington avenue have returned from a trip to the Thousand Islands.

Miss Elsie Carswell of Russell street is spending some time with relatives in Brooklyn.

This month will end the daylight saving and on September 25, which is the last Sunday in the month, we will merge over into standard time.

Rev. E. N. McKinley of Kingston had charge of the services in Trinity Church Sunday. The rector, being confined to his home with a severe attack of neuritis.

State Trooper Bailey, who has been doing police duty in this vicinity the past several months, has been called to the Sidney barracks.

A number of local persons attended the benefit concert held in Kingston on Friday evening for the Benedictine Hospital.

The infant daughter of Mr. and Mrs. Charles Bieber, which was born on September 6, died on September 7. N. R. Lasher had charge of the interment, which was made in the Mt. Marion Cemetery.

Mr. and Mrs. Raymond Benton of Elm street spent Sunday at Howe Caverns and other points of interest.

Kingston Woman Inherits. New York, Sept. 10 (Special).—Mrs. Molly K. Cohen, 7 West Strand, Kingston, inherits \$500 from the estate of her mother, the late Mrs. Beckie Koshouff, of Brooklyn, according to the terms of the will filed for probate in Brooklyn Surrogate Court this morning. Mrs. Koshouff died at her Brooklyn residence, 244 South Second street, in June. The estate is valued formally at "less than \$2,000." The widow, Morris Koshouff, 259 Athina street, Brooklyn, receives the residuary estate.

Caught 40 Pounds of Bass. New Paltz, Sept. 22.—Mr. and Mrs. Stanley Blackwood and Mr. and Mrs. John Doughty of Elmira avenue recently enjoyed a fishing trip at Washington Lake. Their catch was forty pounds of bass.

Mr. and Mrs. Newark Harris, of Plattekill, also Mr. and Mrs. Joseph McDonald and family of East Orange, N. J., were callers on Mr. and Mrs. Walter Harris in Walkill Sunday evening.

Mr. and Mrs. William Dougherty and family, also Mrs. Elizabeth Dougherty of Newburgh and Mrs. William Nabor visited Mr. and Mrs. Herman Nabor at Torrington, Conn., last week.

Mr. and Mrs. Homer Sifton entertained relatives at their home Sunday.

A Methodist camp meeting was held this summer at Lawrenceville, Ga., for the 100th consecutive year on the same ground.

"RIVER

stay 'way from my Door"

Who sings it better than the Boswells?

Every Monday and Thursday night . . . Connie, Vet and Martha, in that bubbling Boswell rhythm . . . as irresistible as Ol' Man Rivuh himself!

And while you listen, light up a Chesterfield. Enjoy their fresh fragrance, their mildness and better taste. They're mild . . . and yet they Satisfy.

Chesterfield Radio Program—Every night except Sunday, Columbia Coast-to-Coast Network.

Chesterfield

Mr. and Mrs. Newark Harris, of Plattekill, also Mr. and Mrs. Joseph McDonald and family of East Orange, N. J., were callers on Mr. and Mrs. Walter Harris in Walkill Sunday evening.

Mr. and Mrs. William Dougherty and family, also Mrs. Elizabeth Dougherty of Newburgh and Mrs. William Nabor visited Mr. and Mrs. Herman Nabor at Torrington, Conn., last week.

Mr. and Mrs. Homer Sifton entertained relatives at their home Sunday.

A Methodist camp meeting was held this summer at Lawrenceville, Ga., for the 100th consecutive year on the same ground.

"TO BE CONTINUED, Tomorrow"

We don't know whether you ever thought of it in this way or not, but a thrilling "serial" is running in this paper which has been a continuous feature every day since our first issue. In fact, this serial shows no sign whatever of coming to an end. Each new chapter reveals unexpected developments. It grows more interesting and more thrilling each day. We refer to the continued story of developing and enriching American life, as told in the advertisements.

Although you read it every day, you may not realize that an army of specialists is employed in telling the never-ending continued story of American progress. Scientists from the various professions—chemists and dietitians, physicians and physicists, inventors and engineers—search out and arrange the facts for the story. Trained writers weave it in the language of street and home. Expert artists and photographers illustrate it. Millions read it, and it touches every life.

Here are a few of the subjects treated in the story: Ways to save labor and to make life better. How to promote health and enjoyment. How to make homes and living in them beautiful. The care and feeding of children and grown-ups. Amusements, recreation and travel. How to prevent sickness and add security to life.

But, just turn to the story itself as revealed in the advertisements. Today's "chapter" we find particularly interesting.

Stop Itching Torment

Whoever is afflicted with the common skin troubles, such as eczema, itching, and other skin conditions, should use **Itch-Stop**. It is a powerful skin treatment that relieves itching and restores the skin to its normal state. It is available in bottles of 50¢ and \$1.00.

FOR FREE SAMPLE and full information, write to: **Itch-Stop, Inc., 54 West 42nd Street, New York, N. Y.**

Uster County Has Healthiest Girl

Miss Belle of Lake Katrine Chosen at State Fair as New York 4-H Girl Health Champion.

Miss Belle of Lake Katrine was chosen at the contest held at the State Fair as the New York 4-H Girl Health Champion. She is eligible to compete in the National Health Contest, to be held at the National 4-H Club Congress in Chicago in December.

Miss Belle is 17 years of age and is a junior in Kingston High School. She has been a 4-H Club member for three years and has done other outstanding work. A year ago she won first at the County Fair on a cake and jelly. At the state fair last year she won a second on her jelly. This year she won a first on pajamas at the county fair. Included in Miss Belle's report is the fact that she does not use either coffee or tea and drinks milk every day. She also uses vegetables, fruits in her diet. She sleeps nine hours with her windows open and gets about two out-door exercises every day. Miss Belle has paid special attention to the improvement of her health during the past year, and her success in this undertaking has been rewarded with the county and state championship with the high score of 98.1 per cent.

Another 4-H Club member who won first at State Fair is Wesley Smith of Saugerties on his 4-H sign done as part of his first year handwork. This makes a total of eight first prizes that Uster County 4-H Club members won at State Fair. George Schneider, St. Remy, was Uster county's entrant in the Boys Health Contest. George was awarded third place.

Goodwin Stands Squarely For Repeal

(Continued from Page One)

should Congress vote the repeal, it would require ratification by three-fourths of the states, which places the repeal squarely back into the hands of the people to decide. It can be done in no other way.

I do not believe in the cancellation of foreign debts unless some preferment may be given us whereby these debts will be paid through means which will amount to the same result.

I believe in the World Court as a means of settling international dispute and with the idea in mind that through this means we will eventually arrive at a point where disarmament may be undertaken in the interest of all tax paying Americans.

I believe that Congressmen elected in the name of the party and bearing the party approval as candidates should adhere to the policies of the national platform. A congressman should not be a detached delegate seeking to exploit his individual beliefs. Such a man is an absolute obstacle to the orderly and successful achievement of the objects of representative government.

It is only by cooperative action that self government can succeed.

A condition exists in our district that should be brought to the attention of the people. There are two other candidates for the office of congressman, each seeking the nomination in the primaries, September 20, neither of whom bear the credentials of the Republican organization in any part of our district.

Personally, I have only the kindest feelings toward each of them and no criticism whatever.

This is a matter for the enrolled voters to decide. The enrolled Republicans are members of the Republican organizations which selected me from the list of candidates submitted. I appeal to them to stand by our party and go to the polls on Primary Day, Tuesday, September 20.

In the drawing for position of name on the primary ballot, my name was placed on the third line.

Yours truly,
PHILIP A. GOODWIN,
Republican Candidate for Congress.

FILE CERTIFICATION OF INCORPORATION.

A certificate of incorporation has been filed with the county clerk by Kallik Club, Inc., a club organized under the membership corporations law for social and recreational purposes. The directors are Walter Taylor of 9 Susan street, Walter May of 6 Washington street, and Howard Shurtler of 10 St. James street, Kingston. Julius Taylor, Walter May, Howard Shurtler, Roy Gadd, David Harris are subscribers to the petition. Francis T. Murray is attorney for corporation.

Two Still Alarms

Two still alarms called out the fire department Sunday. chimney fire at 94 East Chester street broke out Sunday afternoon shortly after 1 o'clock and was extinguished without much damage. In the evening at 9 o'clock the firemen went to 115 Home street where smoke from outside blew into the house and caused an occupant to think the place was on fire. A still alarm was given but the firemen on arriving found the cause of the smoke and that their services were not needed.

P. T. A. School 8 Meeting

P. T. A. School No. 8 will hold its 2nd meeting at the year Tuesday afternoon at 2:30 o'clock in the school. Each member is asked to bring a friend. Mrs. James E. Carle, president of the association, wishes all the mothers of the graduates to attend this meeting for special business which will be discussed before this group only.

Special Parish Aid Meeting

There will be a special meeting of the Parish Aid Society of St. John's Church held at the parish house on Tuesday afternoon at 2:30 o'clock. The Women's Auxiliary will meet at the same place at the same hour to plan the work for the fall and winter.

Dainty Fall Wear IN SOFT FABRICS

Silk Angora Easily One of First Favorites.

Soft lightweight fabrics, thin enough for warm fall days and warm enough for occasional cool ones, are used for all manner of new dresses and suits. Angora is one of these fabrics. Particularly adaptable for sport clothes, it is used for slacks, blouses, one-piece frocks or simple little tailored suit ensembles. A ribbed silk angora is one of the newest fabrics of the season. Natural cashmere jersey is another fabric that is highly approved for midseason wear.

Wood buttons, patent leather belts, pleated collars and cuffs or handbags of matching silk are suggested as trimming on these frocks. Hand smocking on one forms a deep yoke on the skirt and the upper part of the long full sleeves.

New hats of dull velvet, wool fabrics and felt are equally interesting. Bows predominate as trimming. They are stiff and perky affairs placed on the front of the brow or crown.

Bags made of a new ivory-like composition are popular newcomers to the fall accessory line. They are mostly oblong and flat.

NOVELTY VELVET

By CHUBBIE H. HOLLAND

It adds to the zest and interest of the velvet mode that there are so many kinds of velvet in use. Not only are both dull and luster-surfaced velvets in equal favor, but the program divides honors between the very transparent weaves and those of heavier lustrous construction, while in the latest fabric collections many novelties register. A recent arrival, quite out of the ordinary, is crinkled and ridged like the new crepes which are so fashionable. The novelty velvet which fashions the cunning bolero which tops the simple evening gown of triple white sheer, as here pictured, is illustrative of the fascinating effects seen this season. It is of the transparent class and in this instance is in bright blue and white with blue and white organdie flowers.

STYLE NOTES

Heavy-type laces trim the new frocks.

Perky little veils increase in number.

Favor is shown wrap-around skirt treatments.

Gulphie frocks are prominent in the style picture.

Sleeves are that full they pleat into the armhole.

Something to watch is the hat mounted on a frame.

Pebbled reversible satins are at the top of the fabric list.

Woolens and silks smartly combine in the new fall frocks.

Swagger suits with the new-length jackets are first choice of the college girl.

Ruby, also medieval and rhum brown, and beetroot, are highlighted colors for fall.

Gleits and scarves of plain or printed velvet are worn with the new tailored suits.

NEVER AGAIN—

Will Prices on High Grade Living Room Furniture Be As Low As These!

Battery "A" Starts Drive For Recruits

Battery "A", the local firing unit of the 156th F. A. N. Y. N. G., has received from the New York National Guard Headquarters, New York City, permission to accept enlistments, after September 15, there having been a suspension of recruiting during the summer camp period.

Membership in Battery "A" at this time is said to afford great facilities for educational, athletic, recreational and social activities. The officers of this battery which include Lieut. J. P. Byrne, Columbia University; Lieut. E. A. Steuding, Pratt Institute; Lieut. G. W. Freeman, Syracuse University, and Lieut. W. C. Chase, R. P. I., are in a position to give exceptional technical training to the members. During the course of a year's instruction in Field Artillery by these officers, such subjects as mathematics with reference to calculation of firing data and gunnery, electricity as used in telephone and radio communications, surveying with the use of range finders and

high-powered prismatic telescopes

are taught. In conjunction with these technical subjects, equitation is taught by competent horsemen. The new armory, which will be completed and ready for occupancy early this winter, affords excellent facilities for athletic activities, due to the fact that the drill hall provides for the latest in basketball courts, being the largest of its kind in this vicinity, and which will encourage kindred sports. A baseball field will also be located upon the armory property. In the basement of the building is provided a modern pistol range. Recreational rooms will be equipped with billiard tables for the use of members at all times. The tankard riding hall which is one of the largest in the state will be used for mounted maneuvers, basketball classes, polo and mounted basketball, etc. Enlisted men will be encouraged to ride the horses within specified hours, which will mean that on cold winter nights mounted sports will be in order in this magnificent riding hall which is steam heated.

aside ten appointments for the New York National Guard. To become

qualified to accept one of these appointments all that is necessary is to have been a member of a unit of the guard for one year and be able to pass a competitive examination. This regiment has in the past five years sent seven men to West Point. This should be of exceptional interest to high school seniors and recent graduates under 24 years of age. Lieut. E. A. Steuding, recruiting officer of Battery "A" 156th F. A., will be available to prospective candidates for information and enlistment into the battery on any Monday evening between 7 and 8 o'clock at the armory on Broadway.

FOUR INTOXICATION CASES BEFORE JUDGE CULLOTON

Three strangers were sentenced to jail by City Judge Bernard A. Culloton this morning in police court and another was held for a hearing on September 13 when William Turner, New York Central Railroad, policeman, is to appear against him on a charge of disorderly conduct. The three sentenced to jail were: Olaf Skoldland of New York City for five days; Frank Swanson of Sioux City, Iowa, 10 days and John L. Moore, no address, 10 days. All were arrested for public intoxication. Frank Roche of Milwaukee, Wis., is the man whom Judge Culloton held for trial on September 13. Officer centering about the contest for sheriff of Otsego county, arrested Mrs. Charles Buckman of 85 "Hooker" street was fined \$2 for driving a car bearing a set of license plates issued for another car.

CASTS HER FIRST BALLOT AT THE AGE OF 101 YEARS

Madison, Maine, Sept. 12 (AP).—Mrs. Ruth P. Merrill of this town was 101 years old last November, but she cast her first ballot in the election today. Political activity in this vicinity, centering about the contest for sheriff of Otsego county, aroused Mrs. Merrill's interest. She said she voted the straight Democratic ticket and thought she would vote again November 3. That libraries are no modern idea is further testified by the findings of excavation in Nippur, Babylon, where clay tablets bearing the writings of scribes were filed in the archives. The library dates back to 3000 B. C.

Office Cat.
D. J. Sullivan

Grandma's Good Mother.
My grandma used to smoke a pipe
and she's reformed, you see,
because she always wants to smoke
cigarettes with me.

She always used to sit and knit.
As prim as she could be,
but now she's a little just to go
on a double date with me.

Observer:—Hard times agree with
some people.
Editor:—Yes, I feel sure of it.
You're younger than I am.

Altho man may be able to fly like
a bird, he cannot fly comfortably on
a barbed wire fence.

Mrs. Briggs has returned her neighbor
to see the new decorations. The
house had been decorated. They
stopped in the front room.

Mrs. Briggs:—My dear neighbor, my
lovely pictures painted on the col-
lages.
Mrs. Briggs:—My dear neighbor, my
lovely pictures painted on the col-
lages.

A fisherman always likes to tell
about his big catch that got away.
And a girl never gets done bragging
about the man she could have mar-
ried.

Windy Wolf:—My fortune is made.
Friend:—How so?
Windy Wolf:—I've succeeded in
crossing a bounding pigeon with a col-
lar button.

Every husband realizes that the
"pen is mightier than the sword," so
to keep peace he simply writes her
out the checks.

Joe:—Have you any close rela-
tives?
Joe:—Yeah, all of them.

The man at the door of a King-
ston lady, said:
Man:—Madame, I am a bill collec-
tor.

She:—That's fine. What do you
pay for them? We have more of them
here than any other place in
town.

A pessimist nearly always does
better than he feared, while an op-
timist rarely achieves anything like
what he hoped.

She:—Why are women's minds so
much cleaner than men's?
He:—Must be because they change
them so often.

Reunited.
Thru all the days we've been apart
I'll never forget to my heart
Now that it's all September.
Once more you nestle to my breast.
I love you more each minute.
Who wouldn't love last winter's vest
With a dollar bill hid in it?

The preacher calling on one of the
congregation was met at the door by
little Johnny.

Preacher:—Sonny, is your father
home?
Johnny:—No, sir. Pop hasn't been
home since Christmas, when Ma
caught Santa Claus kissing the cook.

Left Overs: Cheer up. The
homelier the dog the better his
chances of winning a prize at the
show. . . . What this world needs is
a good air brake for some birds who
are always talking about themselves.
Getting in a rut isn't so bad if
you are on the right road. . . . A
weak mind is like a microscope; it
magnifies trifling things, but cannot
perceive great ones. . . . We some-
times wonder why the self-made man
is always so willing to accept the
blame. . . . Delectatissima were in-
vented so that housewives could play
bridge an hour later in the after-
noon. . . . A young wife soon learns
that the way to a man's heart is
through his stomach to his pocket-
book. . . . A depression poem:
"Twice in a restaurant they met,
Romero and Juliet. He had no cash
to pay the debt, so Romero'd and
Juliet let." . . . To put on a big front
these times, a young couple needs
plenty of backing. . . . A silent part-
ner in a firm we know does all the
talking. . . . Good English adds more
personal charms than fine clothes
and cosmetics.

608 Summit Ave.,
Greensboro, North Carolina.

Colonial China.
One of the initial attempts to make
fine china in the colonies was in 1760
at the Philadelphia pottery works run
by George Bonnia and George An-
thony Bonnia. Here artificial porce-
lains or bone china and cream-colored
quartzware was produced.

PUFFY

Hitting the high spots of Gotham is
Puff.

"And this is a high spot," he cries,
"sure enough."
I conquer the city with steel and con-
crete.

John:—There's something
about me at my feet."

Copyright, 1932, by Fairchild.

The illustration represents an in-
teresting example which combines
two well liked modes, cutaway and
baggy. In this instance black and
ter with deep cuffs of the beige feath-
er are added. The cuff turban ers
matched by the close bow.

DID YOU KNOW THAT—

The favor shown the orange shades,
both for day and evening, and
in silk fabrics mostly, is general.

Velveteen is commented upon as the
newest fabric for evening
dresses.

Silhouettes adapting leg-o-mutton
or deep armhole sleeve themes
are important in coats. Vionnet's cut
in the new coats is especially cited
because of the becoming manner in
which the lines are fitted.

For the costume suit, the dressy
suit, the velvet blouse looms up as
a rich opportunity for all the girls
who love to dress up. Paquin spon-
sors it.

Angora fabrics in new knitted
constructions, featuring browns, reds
and dark greens, are emphasized for
fall sportswear.

The Patou browns are interesting,
one below as light as possible and
still considered brown. Browne browns
are also effective.

GAS BUGGIES—But They're Worth It.

DEATHS LAST NIGHT

(By The Associated Press.)

Rear Admiral George P. Colverman,
Litchfield, Conn. Rear Admiral
George P. Colverman, U. S. N.,
retired at the age of 45. He served
aboard his father's ship in the Civil
War and later was an executive of
the under Admiral Dewey at
Manila Bay.

Paris. Andre Bahls, 47, French
novelist and humorist.

Mrs. Dora Meyers,
Jersey City. Mrs. Dora Meyers,
115 years old, following a brief ill-
ness.

Magnus W. Alexander,
New York. Magnus W. Alexander,
62, President of the National In-
dustrial Conference Board.

Activities at Y. W. C. A.
Plans are under way for the open-
ing of classes and clubs at the Y. W.
C. A. this month and committees are
already at work on the fall and win-
ter activities.

The Finance Committee held its
monthly meeting last week and the
Board of Directors will hold its
monthly meeting this evening at 8
o'clock. This is the first meeting of
the board since June and a large at-
tendance is requested.

The Business Girls Club will hold
a week-end camping trip at the Y's
Men's Camp at Glenelg on Saturday
and Sunday, September 17 and 18.
The camp will open with lunch on
Saturday and close after supper on
Sunday. A special campfire program
will be planned for Saturday night
and a service for Sunday morning.
All girls who plan to attend are
urged to sign up at the "Y" by
Wednesday evening, September 21.
Terms for full or part time may be
secured at the "Y" office and pro-
spective members of the club are
invited as well as those girls who have
attended the meetings in former
years.

Airplanes built at Patterson, La.,
won first, second and third places in
the national air races from Los An-
geles to Cleveland.

MEXICO'S NEW CHIEF EXECUTIVE AND HIS FAMILY

"Work and no politics" is the motto of Gen. Abelardo Rodriguez, who has succeeded Ortiz Rubio as president of Mexico. Rodriguez is shown above with his family and their two sons, Juan (standing) and Abelardo, Jr.

TABASCO.

Tabasco, Sept. 12.—A large rep-
resentation from here attended the
field day which was held at Deyo's
field. Two ball games proved of in-
terest to the public, although both
games were defeats; the first score
was 9-6, and the second 8-3. Dancing
was enjoyed in the evening.
The local school began sessions on
the sixth. Eugene Davies is the

schoolmaster.

The last of the boarders left the
Rothberg boarding house on Thurs-
day.

Mr. and Mrs. Davies and son
Eugene, also Mr. and Mrs. Vorce of
Oswego were pleasant visitors here
on Sunday. Eugene Davies remained
here as the local teacher.

Ward Hutchins was a pleasant

visitor in the home of Mr. and Mrs.

Judson Decker on Wednesday eve-
ning.

Rachel Rothberg returned to New
York city on Monday after spending
the week-end with her parents, Mr.
and Mrs. Morris Rothberg.

Mrs. James Kelder is spending
some time visiting Celia Kelder and
Charles Krom.

OUR DAILY PATTERN.

A Popular Play or School Costume

For Little Girls.

6989. Becoming plait fullness at
yoke lines is featured in the back
and front of this comfortable little
model. The sleeve may be finished
in wrist length with a band cuff, or
short, (as pictured) in the large
view) with a turned up cuff over a
band cuff. A rolled collar finishes
the dress. The bloomers that accom-
pany the little frock are in regula-
tion style, with elastic run casings at
the top, and at the leg edge.

The Pattern is cut in 4 sizes: 2,
3, 4 and 5 years. To make this
style in one material and with short
sleeves, in a 4 year size will require
2 1/2 yards of 75 inch material. With
long sleeves in the Dress 2 1/2 yards
will be required 35 inches wide. The
Dress alone with short sleeves will re-
quire 2 1/2 yards. The Bloomers
alone, will require 3/4 yard 35 inches
wide. For collar and turnover cuffs
(on short sleeves) of contrasting ma-
terial 1/2 yard 35 inches wide is re-
quired, cut crosswise.

A pattern of this illustration
mailed to any address on receipt of
12c in coin or stamps by the Pattern
Department, The Freeman, Kingston,
N. Y. Be sure to state the size
wanted.

and Children's Patterns, also Hints
to the Home Dressmaker.

UNION CENTER

Union Center, Sept. 12.—Miss Etta
Ellsworth of Kingston called on Mrs.
Emma Dickerson and Mrs. Ellen Du
Bois Tuesday afternoon.

Mrs. Frank Kelder, who is spend-
ing some time at the home of Mr.
and Mrs. Everett Soper, called on
Mrs. Jennie Terpening one eve-
ning recently.

Mr. and Mrs. Peter Kelly of New
York are spending their vacation
with Charles Kelly.

Mrs. A. Mackey and daughter,
Vera, and Charles Mackey of King-
ston, called on Mr. and Mrs. Joseph
Wells Thursday evening.

The Cesana family have closed
their home and returned to New
York.

Mr. and Mrs. Jesse DuBois and
daughters and niece of Kingston
spent Wednesday afternoon and eve-
ning with Mrs. Ellen DuBois.

Dorothy Eckert spent Saturday
with Marjorie Fowler.

Mrs. Emma Dickerson, who has
been visiting Mrs. Ellen DuBois for
the past six weeks, has returned to
her home in Kingston.

The community extends sympathy
to the families of Howard Burger
and C. Terpening for the loss of re-
latives during the past week.

Harold Wynkoop entertained a
number of guests Thursday evening,
the occasion being his birthday.

Because so many employees of a
Greenville, S. C., bleachery wanted a
day off to campaign for a fellow
worker who was running for sheriff,
the management closed the plant on
primary day.

NEW PALTS.

NEW PALTS.

New Palts, Sept. 12.—Mr. and Mrs.
Fred Smith have returned from a
few days trip to Montreal and other
interesting places. Philip Ayers of
Mohawk Lake was at his home on
Grove street on Thursday.

The Rev. and Mrs. Robert
L. Mauserstock, Joice and Grace
Mauserstock were in Kingston Thurs-
day afternoon.

Mr. and Mrs. Judson Schoonmaker
are enjoying a vacation.

Mr. and Mrs. Raymond Jenkins
and daughter, Margaret, who have
been spending the summer with Mrs.
Jenkins's parents, Mr. and Mrs.
Josiah Letene, left on Thursday
morning for Salisbury, N. C., where
Mr. Jenkins is teaching.

Dr. and Mrs. Charles Johnston of
Plattekill were callers in town last
Saturday.

Miss Ethel Alsdorf and mother,
Mrs. Claude Alsdorf, called on
friends at Rock Hill recently.

Mr. and Mrs. George Coy enter-
tained guests from Arden on Sun-
day.

Mr. and Mrs. Friend Wilkew
spent a few days last week with Mr.
and Mrs. Terhune at Bloomington.

Mr. and Mrs. Howard Hoffman
and family returned to their home
on Wurts avenue Thursday, from
spending a few weeks with relatives
in Indiana.

Edward Guinac is attending
Spencer's Business School in King-
ston.

Mrs. Frank Allen of Wurts avenue
has been entertaining her son and
wife, Mr. and Mrs. Harold Allen of
Long Island.

At Colonial Hall the following pic-
tures will be shown this coming
week: On Tuesday and Wednesday,
September 13-14, Marian Nixon and
Ralph Bellamy in "Rebecca of Sunny
Brook Farm" Thursday and Fri-
day, Janet Gaynor and Charles Fur-
ber in "First Year" Matinee Thurs-
day. All talking pictures.

Mrs. A. L. Lane of Lloyd and Mrs.
Charles Smalley and Mr. and Mrs. J.
Palmer enjoyed a trip to Schen-
ectady county on Thursday and Fri-
day.

On Wednesday, September 7, Mrs.
Emily Terwilliger celebrated her
87th birthday at her home.

Mr. and Mrs. William Kaiser have
been entertaining Mr. and Mrs.
Harry Schultz of New York city.

Miss Hilda Gerald, who has been
spending her vacation at her home
on South Chestnut street, left for
Lynnbrook, Long Island, on Sunday,
where she will teach the first grade
in the West End School.

Mrs. John Yeaple, who has been
visiting her daughter, Mrs. Roy
Nichols at Millerton, has returned
home.

Mr. and Mrs. Daniel Gerow enter-
tained Peter Gerow and Miss Lucy
Gerow of Richmond Hill over Labor
Day.

On Labor Day Mr. and Mrs. Harry
Blum were guests at the Fowler
home.

On September 16, the Ladies' Aid
of the Reformed Church will meet at
the home of Mrs. Frank J. LeFerre.

A benefit golf tournament for
Hukueot Grange will be held at
Dayton's Golf Course the afternoon
and evening of September 20.

Ruth and Donald DuBois have es-
tablished Spencer's Business School in
Kingston.

Within six years the planting of
winter lexume seed in Jefferson
county, Ala., has increased from
1,090 to 75,990 pounds per year.

The Quick, Sure Way to End

ECZEMA

No matter how long you've suffered with
itching, feverish, ugly eczema and what
treatments you've tried.

The application of powerfully working
and healing Peterson's Ointment instantly
stops the maddening itching and burning
and just a few days use banishes
every trace of that red cracked, scabbing
skin—leaving it smooth and clear.

For over 20 years Peterson's has brought
freedom to thousands suffering with
eczema, pimples, eruptions and itching skin.
The ingredients are so powerfully healing
and soothing that it never fails to bring
relief and cure. One 35 cent box proves
it. All drug stores.

Higher Education and Its Influence on Clothes

New York—The college girl is
among the several varieties of Amer-
ican girl who has been glorified, not
by a Ziegfeld but by the merchant.
Stores not only cater to her but lis-
ten to her opinions. She is asked to
sit on the board of directors and to
tell buyers and merchandisers men
what's what in campus clothes.
That's progress and recognition it
should say.

It is tending toward simplified
clothes. Down with georgias and
frills is her slogan. She wants sane,
sensible, smart and comfortable
clothes at a price well within her al-
lowance. And being a modern young
person she is also a go-getter and has
started out to get what she wants.

She wants convertible clothes that
may round out the day and well into
the evening. She is all for less for-
mal evening clothes and in this older
women are of one mind with her.

The wool evening dress about
which we read so much is to the win-
ter what the pique evening dress was
to the summer. It is simple and
practical and different, just the sort
of thing to register in the minds of
those who see merit in all these
qualities.

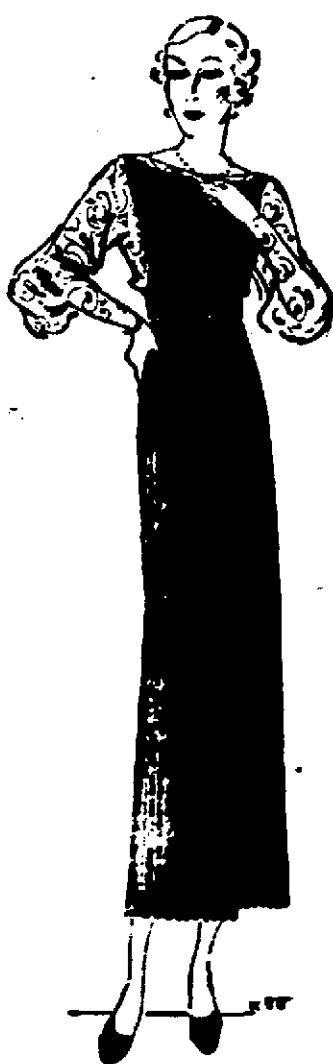

Then there is velveteen. It is no
longer as a poor relation of velvet
that it makes its bow, but on its own
merits, as a worthy fabric for any
function one is likely to attend. It
is made into swaggy, evening coats,
suits and tied tightly around the
throat. It is made into good looking
dresses for day or after six usage. If
one is well read on fashions and
takes them literally one may hesi-
tate between velvet, velveteen and
civie satin, the latter a Vionnet
caprice. How like this couturiere to
launch an ultra shiny material in a
season of dull ones.

The contrasting yoke and sleeve
idea has been taken up with enthu-
siasm and this being so, the practical
minded have conceived to make them
detachable. From this helpful sug-
gestion to having a change of
guimpe, for that is what they amount
to, brings one a step nearer to a
varied wardrobe.

Evening Clothes Less Formal

An inclination toward less formal
feeling, expressed by the avoidance
of extreme décolletage and new vari-
ations of the covered shoulder sil-
houette, the dominant trend in even-
ing gowns. Woolen fabrics for even-
ing are conforming with the tendency
toward less formality.

A SKIRT—PLUS

Copyright, 1932, by Fairchild.

The increased emphasis on cable
and six-inch-from-the-floor skirts for
formal frocks in costume collections
suggests that more suitable for a
skirt of satin rough crepe, or velvet,
sweater knitted or a new trend or
made on moderately flared lines.

The high-back and front attached
to the high girdle, and which are re-
markable, give an effect to a dress
worn with a suitably formed blouse.

Fire Heads Youth Congress

The first annual Youth Congress under the auspices of the Kingston Youth Council opened at the Y. M. C. A. Camp Friday evening with a splendid attendance. Miss Beatrice Dwyer, first vice president of the council, opened the supper by calling upon the Rev. Goodrich Gates, pastor of the First Presbyterian Church, to pronounce the invocation.

After supper the business session was held and the following were elected to serve as Congress officers: Kimbol Firth, president; Marion Constant, vice president; and Eleanor Lawton, secretary. The new officers assumed their roles immediately, and proceeded with the business of the Congress. Henry S. Van Der Zee, chairman of the worship service committee, led the opening worship after which Chester A. Batts, vice president of the board of directors of the Kingston Y. M. C. A., welcomed the delegates to the camp and expressed his interest in the Youth Congress.

The Rev. L. H. French, pastor of the First Dutch Reformed Church of New York, was the opening speaker. He took as his topic "Modern Methods," and presented many helpful suggestions regarding the conducting and program of young people's groups. His address was much enjoyed by the delegates, and should prove helpful in preparing the winter program.

At the close of the address, three discussion periods were held followed by a campfire program. The discussions were on Worship, led by the Rev. Goodrich Gates; Recreation, led by N. H. Fuller; and Dramatics, led by A. H. Shultz.

YETI BACK DROTATORSHIP AS REKESLAG CONVENES.
Berlin, Sept. 12 (AP).—The support of Germany's organized veterans, through the executive committee of the Stahlhelm (steel helmet) was offered to President Von Hindenburg today as the government sided for its battle with Adolf Hitler and his allies in the Reichstag, which was scheduled to meet at 3 p. m.

The past fourteen years have proved that an independent, responsible government cannot be obtained by elections," the veterans' statement said. "Therefore, we wish to effect parliamentary rule. We demand that this government march forward and act, not talk. In this way it will gain the confidence of the whole nation."

While Chancellor Von Papen planned to lay before the Reichstag his complete program, including the far-reaching plan for economic reorganization and re-employment of millions of jobless, Hitler, his chief opponent, was leaving no stone unturned to bolster his strength for the expected battle.

Seizing upon the situation created by Germany's demand for arms equality and France's recent refusal referring the matter to the League of Nations, Hitler announced he had created a special defense department and a department of colonies in his Nazi organization. There have also been recent German demands for a return of some of the colonies lost through the World War.

General Franz Van Epp, one of Hitler's chief lieutenants, was placed in charge of the new defense department.

"The problem of Germany's defense is pressing for solution," Hitler said. "And the nation expects the National Socialist Party to regain the Fatherland's lost military security."

In the meantime, the Von Papen government planned to give the Reichstag a chance to debate the political situation before using the decree already signed by President Von Hindenburg calling for its dissolution.

LETTERS FROM BERN TO MILLETTE WOMAN FOUND
San Francisco, Sept. 12 (AP).—The reason for the suicide of Paul Bern still remained a mystery today as officers strove to fill in missing chapters leading up to the death of the motion picture producer husband of Jean Harlow, screen actress.

Letters from Bern to Dorothy Millette, missing "other woman" in his life, were found in her effects here yesterday but filled only a few pages. More was expected from Los Angeles, where Bern shot himself a week ago today, with the probable meaning of his last will and the promise of a statement from Mendel Silberberg, attorney for Miss Millette. Authorities of Sacramento and San Francisco sought Miss Millette, 31, on Friday. She was believed to have fled either in the muddy Sacramento river between the two cities, herself suicide, or if still alive, to be seen from possible recognition.

Bern and Miss Millette were intimately linked in four letters found by police, opened baggage left at a San Francisco hotel from which the woman checked out the day after the producer's death. She vanished that night or the following morning from the river steamer Delta King, enroute to Sacramento.

Three of the letters were from Bern, the other from his secretary, Irene Harrison.

The letters revealed Bern had been sedulous for Miss Millette's welfare and was interested in supplying her with funds.

Charged With Burglary
John Novak, 27, of Milton was brought to the county jail on a charge of burglary, third degree. He will be given a hearing later before Justice Carl M. Norgert.

One of Thanks.
To all friends and neighbors who so generously offered their sympathy and service on the occasion of the death of Miss Maude Palm of Hudson, especially the boarders, choir and minister of the West Shaker Baptist Church, who we have been unable to thank personally, we desire to extend sincere and heartfelt appreciation.

Market for Fruits And Vegetables

New York, Sept. 12 (AP).—(State Dept. of Agriculture and Markets.)—Update Big Eastern lettuce and romaine were in moderate receipt. Sales in crates of two dozen heads ranged from 35 to 75.

The prime market was steady to firm, but only on fancy large.

Cauliflower advanced under relatively light receipts. Sales on California Mountain offerings were from \$2-\$2.50 per crate, chiefly \$2.25-\$2.30. Colorado cauliflower realized \$2-\$2.50.

Updated domestic white cabbage slumped. Bulk stock sold on the basis of \$15-\$16 per ton, while sacks of \$8-\$9 the range from 60 to 75, occasionally higher.

Supplies of yellow onions were moderate.

FRUIT

Apples: Hudson Valley, bu. basket or tub: Alexander N. Y. C. 8, grade No. 1, 2 1/2 inch and upward, 65c-55c. Fall Pippin, No. 1, 2 1/2 inch and upward, \$1.35-\$1.50, 2 1/2 inch and upward, \$1.37 1/2, 2 1/2 inch and upward, \$1.35-\$1.50. Rhode Island Greenings, No. 1, 2 1/2 inch and upward, \$1.25-\$1.50, 2 1/2 inch and upward, \$1.25-\$1.50. McIntosh, No. 1, 2 1/2 inch and upward, \$1.25-\$1.75, few \$2. North Western Greenings, No. 1, 2 1/2 inch and upward, \$1-\$1.25. Wealthy, No. 1, 2 1/2 inch and upward, \$1.25-\$1.50. Wolf River, No. 1, 2 1/2 inch and upward, \$1.12 1/2. Unclassified 2 1/2 inch and upward, various varieties, 50c-\$1.

Cherries: Hudson Valley, four quart climax basket, sour, black, best 30c-35c, few 40c, poorer 20c-25c. Quart basket, black 5c-10c, best 10c.

Half bu. basket, various varieties, 50c-75c, mostly 45c-75c.

Prunes: Hudson Valley, various varieties, four quart climax basket 20c-25c. Twelve quart climax basket 50c-75c.

Plums: Hudson Valley, various varieties, twelve quart climax basket 50c-75c. Four quart basket, Damsun 20c-25c. Half bushel basket 50c-75c.

ALTERATIONS AT NEW YORK SAMPLE SHOP

Extensive alterations are being made at the New York Sample Shop on Wall street. A new front is being installed. It will be of the deep window type giving greater display facilities. Various improvements will be made to the interior of the store by the Messrs. Fein, owners and proprietors. During the alteration period an alteration sale is in progress.

PORT NEWS

Port News, Sept. 12.—The annual business meeting of the Christian Endeavor Society will be held at the home of Miss Mildred Freer at 5 o'clock Tuesday evening. All members are urged to be present as the selection of officers for the new year will take place at this time.

The Firemen's Five Drum and Bagle Corps will practice at the powder mill held at 4:30 this evening. All members are urged to be present.

Mrs. Lauretta Lowe is in the Kingston Hospital, where she recently underwent an operation. Her many friends hope for a speedy recovery.

The Ladies' Aid Society of the Reformed Church will hold its monthly business meeting at the home of Mrs. Ira Jordan at 2:30 Wednesday afternoon. Mrs. Jordan and Mrs. Edith Schryver will be the hostesses of the afternoon.

Philip O'Reilly of Main street, who is at the Benedictine Hospital, is slowly improving.

The Firemen's Five Drum and Bagle Corps will hold a block party Thursday evening in Spinnawebber's garage. There will be the usual good things to eat and dancing by a good orchestra will be enjoyed. It is hoped that a large crowd will come and spend a pleasant evening.

Elizabeth Guman, collector of school district No. 15, has received the tax roll for 1932 and will receive taxes at her home for thirty days at one per cent, after which time five per cent will be charged.

Miss Marie Fambert of Malone, N. Y., and Miss Jane Munson of Stout avenue, left by auto Sunday for Cortland, N. Y. Miss Fambert, who has been spending the summer with her sister, Mrs. Page, of Port Ewen, will enter Cortland College this week.

HURLEY PARENT-TEACHER MEETING HELD FRIDAY

Hurley, Sept. 12.—The Hurley Parent-Teacher Association held its first meeting on Friday afternoon, September 9, at the Hurley School. The meeting was conducted by the president, Mrs. Angus Rowse.

During the meeting a motion was made and seconded that the swings for the primary children be repaired. This suggestion will be acted upon immediately.

The possibility of providing the school with sanitary drinking cups is going to be investigated and will be taken up at the October meeting.

Following the business session of the meeting refreshments were served by Mrs. Kramer, chairman of the social committee.

C. D. of A. Clambake.
Court Irenita, No. 69, C. D. of A. invites all members of Court Santa Maria, No. 164, to attend the annual clambake and outing to be held at Upton Lake, ten miles from Poughkeepsie, on September 18. All reservations must be made by Wednesday, September 14.

SMALL CARRYING CHARGE

SPORT SLANTS

By Alan J. Gould

(Associated Press Sports Editor.)

The slants of the New York Yankees' season in the world's series may seem to strike as much more into the heart of an average National League partisan as they do into the heart of a Yankees fan. Remembering that the Yankees have taken their last world's series game in a row.

Those slants, however, were regressed back in 1927 when Miller Huggins directed his last and greatest aggregation, when players like Pennock, Lazzeri, Ruth, Gehrig, Combs and others were in their prime, fortified as well by a great defense.

The current Yankees have clinched the American League flag impressively enough, shaking off the champion Athletics early in the campaign and having no special difficulty with any other outfit, but Joe McCarthy has not yet put together the finished product that Huggins turned out.

Marce Joe, of course, has done a splendid job in two years, with a record of being the only manager in the big league history to win in each of the two major circuits. But his forces, with a few exceptions, still are concentrated around the slugging prowess of Gehrig, Ruth, Combs and Lazzeri. Offensively as dangerous as ever, this quartet nevertheless has neither the speed nor defensive skill it possessed five or six years ago.

Gomez New "Pennock"

In place of the aging Pennock, Vernon Gomez has moved forward as one of the best southpaws in the game. Bill Dickey is a great catcher, much more useful in every respect than Bengough or Collins, the men behind the bat for the 1928 Yankees. Ruffner, Allen and MacFayden replace Hoyt and Zachary, with Pizarro one of the best pitching survivors of the last championship combination.

Chapman, Lary and the veteran Joe Sewell have replaced Meusel, Koenig and Dugan, respectively, with the youthful Frank Crosetti in a position to make his world's series debut if needed for infield duty.

It is a coincidence that finds Koenig a factor in the late surge of the Chicago Cubs, ready to oppose his old teammates in the battle for the big end of the series players' pool.

Cuba Faster

Considering the Cubs as the National League's hope to make it two straight over the American League, the chances are they will show more speed and dash, better pitching and perhaps a stronger all-around defense than the Yankees.

The Cubs present an odd mixture of youth and experience, with boys like Demaree, Herman, Hack, Warneke and Jurges mingling with Old Hoss Stephenson, Charley Grimm, Kiki Cuyler and Gabby Hartnett.

They have much of the experience where it will count most—in the box. Burrell Grimes, no matter what his season's record, will be tough to beat any time he starts in the big money show. Root, Malone and Bush were unable to stem the surging tide of Philadelphia bats in 1929, but they are still good.

Warneke, a first year sensation, likely will be thrown into the front line despite his inexperience and the memory of what happened to Paul Derringer of the Cardinals last October.

130 CHALLENGERS IN AMATEUR GOLF TOURNAMENT

Baltimore, Sept. 12 (AP)—Amateur golf's big six day marathon started over the Five Farms course today with 130 challengers seeking qualifying positions for the United States championship.

Over this 6,400 yard layout, where par 70 never has been bettered in competition, the first 18 holes of the 36 hole qualifying test was played. The 32 low scorers today and tomorrow will advance to Wednesday's match play rounds.

Picking favorites for the championship was risky business, but Francis Outmet, the defending champion of Boston, was well liked. Outmet has been hitting his shots well and putting with his usual fine touch, although he hasn't been scoring well. He is in good physical trim and seems ready for a week of grueling matches. Others of the well-advertised stars liked are the youngsters—Charles Seaver of Los Angeles, Maurice McCarthy of New York, Billy Howell of Richmond, Va., and Gus Moreland of Dallas, Texas; Tony Torrance, captain of the British Walker Cup team, and Cyril Toller of England.

Every member of the American Walker Cup team as well as most of the Britons was conceded a fair chance. And then there are seven former champions—Outmet, Harrison Johnston, Jess Sweetser, Charles Evans, Max Marston, Jesse Guilford and Chandler Egan—with new title aspirations. Every one of these men has been shooting near-par golf during the pre-tournament practice.

Johnston's attempt to gain the match play salient will be one of the features of the qualifying rounds. Not since he won the championship in 1929 has "Jimmy" been able to conquer the qualifying round jinx.

This second tournament of the Post-Jones series finds several strong threats from over seas. Torrance and Toller especially look good. Toller's booming drives giving him something of an advantage on this long course, with its even dozen tough par four holes.

Guilford, who was ill Saturday, was in shape again today and Gus Moreland's hand cut several days ago, was almost healed.

LEGION BOYS IN POUCHKEEPEE WEDNESDAY

The American Legion of Poughkeepsie will run a card of boys Wednesday night, September 14, in Columbus Institute in the Bridge City. Harry Watkins will top the card with other interesting and rare matches.

Jack Sullivan of Marlborough will

Feldman-Sexton Battle Tonight In Main Bout

Jackie Feldman, brother of Abe Feldman, who was Max Schmeling's sparring partner for some time during the training season, will meet Eddie Sexton tonight in the main bout of the American Legion boxing show to be staged in the Legion Stadium at the corner of Broadway and O'Reilly street.

This main bout of six rounds should be action of the high degree. Sexton is one of the fastest boys of the weight in the east and Feldman is climbing towards recognition in his class. Sexton is now in possession of the A. A. U. championship for the men in his weight in Brooklyn and New York.

At this time Feldman will be defending his championship of the Federation. Only recently Johnny Havas was defeated by Eddie Sexton on the Legion card in the main bout.

The main bout will be preceded by Johnny Marzello in a match with Otto Paradise of Brooklyn, a tough opponent. Marzello fought a draw with Buddy Limmerson on the last card.

The remainder of the card will be: Charlie Carpinio vs. John Law, 6 rounds.

Joe Nages, Flatbush, vs. Rodriguez, Brooklyn, 4 rounds.

Mickey Raymond, Flatbush, vs. Johnny Connors, Schenectady, 4 rounds.

Chester Dawe, Kingston, vs. Freddie Slate, Kingston, 4 rounds.

Jack Volensky, Kingston, vs. Bobby Leggett, Schenectady, 4 rounds.

Tagging Major League Bases

By HERBERT W. HARKER

Associated Press Sports Writer

The major league finish line still is fourteen days away but, with a little luck, both pennant races may be decided this week.

The New York Yankees are almost certain of clinching the American League race within the next few days. They need only two victories to eliminate the sole remaining contenders, the Philadelphia Athletics and Washington Senators. In the National League, the Chicago Cubs are confronted with a sterner task. They need ten victories to eliminate the Pittsburgh Pirates, or any combination of victories, which, coupled with Pittsburgh defeats, totals ten. The odds are against any definite decision in the National League this week but it could be done if the Pirates hit the skids.

The Cubs stretched their lead over the idle Pirates to six full games yesterday by triumphing the Brooklyn Dodgers, 3-1, behind Guy Bush's eight hit pitching.

The defeat all but eliminated the Dodgers from the race. They automatically will be out of it as soon as the Cubs win four games or when any combination of Cub victories and Dodger defeats totals four. The only other team with a mathematical chance to win are the Phillies, but they will not out as soon as the Cubs win three games.

The Boston Braves beat the Cincinnati Reds in both ends of a double header, 13-3 and 10-1, and drew to within a game and a half of the fourth place Phillies. The St. Louis Cardinals retained their hold on sixth place by beating the New York Giants, 3-2, in the second game of a doubleheader after taking a 7-3 beating in the opener.

The Yankees made no progress in their march to the American League flag for they were stopped by Wes Ferrell and the Cleveland Indians, 5-4. Ferrell, making his first appearance after a ten day suspension, held the Yankees to eight hits and won his 21st game of the season. Johnny Allen suffered his first defeat in his last eleven games. Jimmie Fox's 52nd homer with one on was the margin by which the Athletics beat the Detroit Tigers, 5-4. Washington made it 23 victories in 27 games by tripping the Chicago White Sox twice, 2-1 and 3-4, and moved to within one game of the Athletics.

The St. Louis Browns, after breaking an eight game losing streak in the first game, 7-1, dropped the second to the Boston Red Sox, 8-2. Dale Alexander poled a home run with the bases filled and two doubles in the second game.

Like Marty Brill, went back to show the home town folks what he could do. Using many different paces of tossing them in, Free pulled himself through several tight places. One came in the fourth when the bases were filled and only one down. He showed his stuff here by setting his opponents back without any damage.

He would have pitched a shutout but for an error in the ninth when Jimmy Merritt made a wild pop to third. Still the game was a first rate exhibition with the Kingston Stars collecting 16 hits.

Pres Knight Turns In All Star Victory

Pres Knight, Kingston boy who has a "zip" to the ball when it leaves his hand and travels to the catcher's mitt, pitched his way to headlines Sunday afternoon by turning in a 4-1 victory for the Kingston All Stars at Chichester.

Knight came from Chichester and like Marty Brill, went back to show the home town folks what he could do. Using many different paces of tossing them in, Free pulled himself through several tight places. One came in the fourth when the bases were filled and only one down. He showed his stuff here by setting his opponents back without any damage.

He would have pitched a shutout but for an error in the ninth when Jimmy Merritt made a wild pop to third. Still the game was a first rate exhibition with the Kingston Stars collecting 16 hits.

He would have pitched a shutout but for an error in the ninth when Jimmy Merritt made a wild pop to third. Still the game was a first rate exhibition with the Kingston Stars collecting 16 hits.

Grand Slam Series! THE STORY OF BABE RUTH, RECORD WRECKER

This is the first of ten stories relating the prodigious world's series feats of the one and only Babe Ruth. During the end of his career, the Babe this year will make his tenth and perhaps last appearance in the classic.

By EDWARD J. NEIL

Associated Press Sports Writer

New York, September 12 (AP)—Every time George Herman Ruth steps up to the plate, scratches his spurs in the batter's box, tucks down his cap as the crowd roars, and waves his lucky wand—nine world's series records either will tumble automatically or tremble, and 13 others will be in danger.

That is all that Ruth, the greatest slinger in baseball history, once one of the game's best left-handed pitchers, and certainly the outstanding late attraction of all times, means to the game he has played for world's championships more than any other ball player.

The first three of these he saw as a pitcher for the Boston Red Sox in 1915, 1916, and 1918 and even then he set up records. His mark of 25 successive scoreless innings in series competition has never been equalled or surpassed.

But over the stretch of his world's series career with the Yankees in 1921, 22, 23, 26, 27 and 28, when hitting was his forte and the clouting championships of the world at his mercy, the big batter has all but rewritten the record book.

Every time he scores a run or bats one in, hits a home run or any extra base hit, gets a base on balls or even strikes out, Babe Ruth breaks one of his own series records.

Ruth's unequalled marks today, over the period of his nine series, stand at 31 runs scored, 27 driven in, 13 home runs, 20 long hits, 48 extra bases on them for a total of 85 bases on all his hits, 29 bases on balls and 27 strikeouts.

He has made four home runs in one series, and twice clouted three in one game. He has walked 11 times in one series, four times in one game.

He made six long hits, three dou-

bles and three home runs in four games with the Cardinals in 1928. He had 12 total bases in one game, 11 in one series. And he holds the magnificent batting average record of .625 for one series. Six times he has averaged better than .300.

He has made four home runs in one series, and twice clouted three in one game. He has walked 11 times in one series, four times in one game.

Youth Congress Closed Sunday

The first annual Youth Congress held under the auspices of the Kingston Youth Council at the Y. M. C. A. Camp at Lake Glenside closed Sunday.

The conference was a splendid success, and the delegates, representing several of the young men's clubs of the city, were present, and participated wholeheartedly with the plans and program prepared.

The conference President, Kimbol, and the other officers, Marion Contant, vice-president, and Eleanor Contant, secretary, officiated.

A. Vening-Melness, of Holland, in a report to the American Geophysical Union.

The various speakers, the Rev. J. H. French, the Rev. J. A. Leach, the Rev. Gregory Mabry, the Rev. Goodrich Gales, and the Rev. Burger were present, and presented some real, helpful points to the delegates.

The delegates were generally clear, and expressed well the theme of the conference.

The discussion leaders, the Rev. Goodrich Gales, the Rev. J. H. French, the Rev. Gregory Mabry, and the Rev. Burger, did splendid jobs in aiding the delegates in the study of their respective subjects.

Saturday afternoon, a period for the discussion of Social Service was held under the direction of the Rev. J. H. French.

Alfred Schmidt, chairman of the welfare board, was the speaker, and aided in leading a discussion of the work of home relief.

Worship Service, recreation programs, exercises were all conducted by the delegates, and proved not only interesting but extremely helpful in suggestions.

The chaplains, Miss Ethel Hall, Mr. and Mrs. N. H. Fuller, Miss Lillian Herdman, and Mrs. D. N. Secore, found their jobs extremely easy, and performed them well.

The kitchen at the Congress was in charge of Mrs. D. N. Secore, and the only criticism heard was that "we couldn't eat all that was put before us."

Sunday afternoon, after the address of W. H. (Billy) Barker, the closing of the congress in the form of a communion ceremony was held.

The Rev. A. S. Cole officiating, assisted by Clarence S. Schoonmaker, and N. H. Fuller.

The Youth Council is organized of three representatives from each young people's group which desires to affiliate with it from Kingston.

Its purpose is mainly for the promotion of a larger program among young people in these groups. Plans are under way for a building up generally of individual groups, both in membership and program. It was under the auspices of this group that the Congress was held.

The officers of the Council are as follows: Kenneth L. Garrison, president; Beatrice S. Power, first vice-president; Francis Phillips, second vice-president; Eleanor Lawatch, secretary; and Marion Contant, treasurer.

Further information of the Council may be secured from any of the officers, or members of the Council.

The committee in charge of the congress was as follows: Harry T. Gumaer, chairman; Lillian Herdman, Lauretta Macholdt, Helen Walker, Hurl Van Deusen, the Rev. O. E. Brundoff, A. H. Shultis, Marion Contant, Oscar Lawatsch, Kenneth Garrison, Kimbol Pirie, Lee Osterhoudt, George Shahan, Dorothy Kaplan, Francis Phillips, Harold Maccholdt, Phyllis Eastman, Lucille Coffin, Paul Haas, Henry Van Der Zee, Beatrice Power, Ruth Howard, Richard Bailey, Glenn Young, Eleanor Lawatsch, Wilson Tinner.

MARDI GRAS AND FESTIVAL AT COMFORTER HALL.

Tonight the men of the Comforter Men's Club will meet in Comforter Hall to complete the work in order that everything will be in readiness for the opening of the huge festival and Mardi Gras that will be held on Wednesday, Thursday and Friday evenings of this week. The men had at first planned to hold this affair on Tuesday, Wednesday and Thursday evenings, but it was necessary to change these dates as the work of getting the hall decorated was a larger task than at first anticipated.

A large crowd is expected as the purchasing committee has over 3,000 articles to be used to make this affair a success.

The entertainment each evening will be of many surprises. Also, the orchestra will give a great many selections, both old and new.

Many good things to eat will be on sale at the refreshment booth.

This festival and Mardi Gras can be patronized by the grown-ups and children and the general committee in charge feel that all those attending will have such a pleasant time that they will want to return each night.

Compensation Court.

Referee Hoyt will hold compensation court at the court house Tuesday, September 13, beginning at 9 a. m.

Taming skunks and teaching them to do tricks is the odd hobby of John Wildermuth, 90, of Tampa, Fla.

BUSINESS NOTICES

William Miller's Taxi. Phone 17.

KINGSTON HORSE MARKET.

Elmer Pelen will have 75 head of horses for the auction Tuesday. On Thursday we sell furniture. Sales start Tuesday and Thursday at 12:20 p. m. 605 B'way, Kingston, N. Y.

The Clinton School for kindergarten and primary pupils will reopen on Oct. 3, location to be announced later. For further information inquire Miss Grace Reaven, Greenport, L. I., N. Y.

HENRY A. OLSON, INC.

Roofing, Waterproofing, Sheet Metal Work, Slatings and Roof Coating. 170 Cornell Street. Phone 560.

Wanted.—To buy men's used clothing and hats. Phone 1016-W or 3213-J.

Gravity Gives Science New Evidence Earth's Crust Floats On Rock 'Lake'

By F. B. COLTON.

(Associated Press Science Writer.)

WASHINGTON, Sept. 12.—Gravity, the most powerful force that holds things together on the earth, has given scientists new evidence that the earth's crust floats on a plastic lower layer, somewhat as a raft floats on a lake.

The new evidence was discovered through measurements of gravity's pull in the West Indies, says Dr. F. A. Vening-Melness, of Holland, in a report to the American Geophysical Union.

The "floating" idea is called the theory of isostasy. The crust of the earth, under this theory, might be compared to a large number of rafts floating side by side—but on a lake of thick, slow-flowing molasses instead of water. The material on which the earth's crust floats is plastic rock, far "stickier" than the molasses, but it does flow.

If weight is added to one "raft," or section of the earth's crust, it sinks lower in the "lake," and the increased pressure causes the material below to flow over beneath the neighboring "raft" and push it up so that it rides higher, according to the theory.

Measurements of gravity's pull in various parts of the world show that this is actually what happens, says Dr. Melness.

Places where the "rafts" of the earth's crust are not in perfect balance—where isostasy is out of equilibrium—can be traced because they affect gravity's pull. Gravity pulls most strongly over sections of the earth's crust that are heaviest or most dense. Lighter sections exert less pull.

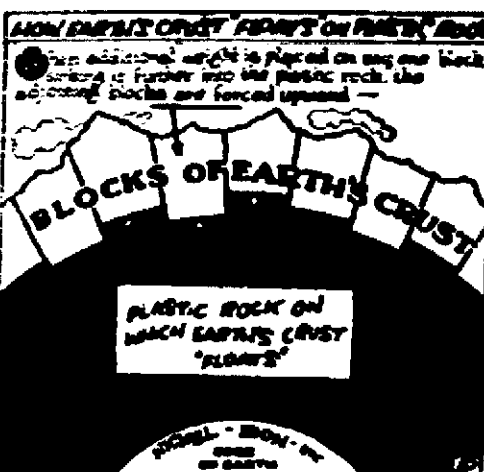

The newest gravity evidence that the earth's crust is "floating" was gathered when Dr. Melness and other scientists cruised through the West Indies, on the yacht "Marmion" of Hugh Matheson and the U. S. Navy submarine S-48.

Dr. Melness states that differences in gravity's pull found there at different points on land and sea, showed that the earth's crust is "buckling" downward underneath a region where a mountain range is in early stages of formation.

He believes this downward buckling shows that isostasy is working. Part of the crust is being thrust downward to balance other parts being thrust upward. When the mountain range finally is formed, says Dr. Melness, there will be a protuberance, or "root" below it, thrust down into the plastic mass of rock on which it floats.

New evidence that the earth's crust, divided into a series of huge "blocks," floats on plastic rock below the surface has been reported by Dr. F. A. Vening-Melness (left), Dutch scientist.

Dr. Melness states that differences in gravity's pull found there at different points on land and sea, showed that the earth's crust is "buckling" downward underneath a region where a mountain range is in early stages of formation.

He believes this downward buckling shows that isostasy is working. Part of the crust is being thrust downward to balance other parts being thrust upward. When the mountain range finally is formed, says Dr. Melness, there will be a protuberance, or "root" below it, thrust down into the plastic mass of rock on which it floats.

Dr. Melness states that differences in gravity's pull found there at different points on land and sea, showed that the earth's crust is "buckling" downward underneath a region where a mountain range is in early stages of formation.

He believes this downward buckling shows that isostasy is working. Part of the crust is being thrust downward to balance other parts being thrust upward. When the mountain range finally is formed, says Dr. Melness, there will be a protuberance, or "root" below it, thrust down into the plastic mass of rock on which it floats.
